VIEW PRODUCTS

## Pearl - 2901

It's a quiet, neutral shade. Pearl gives you the charm of wood with a whisper not a shout.

Also available in GlueDown 2101

Pearl - 2901

Also available in GlueDown 2101

**Bristol Harbor - 2907**

The light grey wood tint is popular in today's modern home, creating a sense of more space.

Also available in GlueDown 2107

## Whispering Pines - 2908

Inspired by the classic look of Hickory wood. The lighter shades add variety, warmth, and charm.

Also available in GlueDown 2108

**Bedford Creek - 2910**

Features a timeless shade with medium variation made to mix smoothly with the room's decor.

Also available in GlueDown 2110

## Sandpiper Spring - 2909

Sandpiper Spring features a timeless shade with medium variation made to mix smoothly.

Also available in GlueDown 2109

Arrowhead - 2903

Also available in GlueDown 2103

### Arrowhead - 2903

Casual style is the point that Arrowhead gets across with its medium wood tone.

Also available in GlueDown 2103

## Cobble Hill - 2911

The shade's caramel, even-tone adds a sense of comfort to any room, putting the focus on decor.

Also available in GlueDown 2111

Cobble Hill - 2911

Also available in GlueDown 2111

Yosemite - 2999

Also Available in GlueDown 2199, Sound-Tec 9599

**Yosemite - 2999**

The beauty of Yosemite rests in the softly blended wood grains and variations of color.

Also available in GlueDown 2199, Sound-Tec 2599

## Willow Run - 2912

Willow Run glows with a warmth and simplicity that is just right for today's casual, comfortable home.

Also available in GlueDown 2112

Willow Run - 2912

Also available in GlueDown 2112

A close-up photograph of a chestnut wood floor. The planks are arranged in a herringbone pattern, creating a complex, interlocking geometric design. The wood has a rich, warm brown tone with visible grain patterns and several dark, natural knots scattered throughout. The lighting is even, highlighting the texture and depth of the wood.

Chestnut - 2906

Also available in GlueDown 2106

## Chestnut - 2906

Chestnut is a vintage treasure with all the beauty and charm of the great American tree.

Also available in GlueDown 2106

# RAPIDLOCK

TECHNOLOGY

## CUT DOWN INSTALLATION TIME BY 30%

Installing Sound-Tec and Studio 12 is faster and easier than ever before, thanks to its innovative Rapidlock clip system. Rapidlock ensures a reliable, water-tight lock that lasts. Designed to be installed with just a click, renovating just became a whole lot easier.

### 1 | ANGLE

Start by engaging the plank on the long side at a 45° angle.

### 2 | SLIDE

Slide the plank to the left until the sides align.

### 3 | DROP

Gently drop the plank to engage the locking system.

### 4 | SECURE

To secure the locking system and make flush, gently tap with a soft-faced hammer.

Check out [UrbanSurfaces.com](http://UrbanSurfaces.com) for the full guide on Rapidlock.

## BEAUTY IN THE DETAILS

Easily transition the flooring to a variety of different settings.

The different molding options deliver several variations, when fitting the floor to any room, and any situation. Pick the best molding for your desired look.

# BREATHE EASY.

## What Are You Breathing?

Research by the RFCI (Resilient Floor Covering Institute) shows that on average a person will spend 90% of their life indoors. Whether it be in your working environment, your home, or sitting in a movie theater, you will spend a majority of your time inside. When this is realized, you may want to know how healthy the air quality is, and rightly so. A recent study done by the Environmental Protection Agency (EPA) found that indoor air was deemed two to five times more harmful than outdoor air. This is due to many harmful pollutants including radon, mold, and carbon dioxide found indoors. Healthy air contributes to better learning in schools, improved productivity in offices, and more comfortable homes. Poor indoor air quality (IAQ Indoor Air Quality) can be a factor in a variety of health problems, such as headaches, dizziness, and more serious long-term effects.

## Why LVT/SPC Flooring?

LVT/SPC floors are easy to clean and maintain because they provide a impenetrable surface that doesn't absorb odors, spills, dust, or soil. They also don't retain moisture, which can lead to microorganisms such as dust mites and mold.

## FloorScore and LEED Certification

Hard-surface flooring that is certified for low VOC emissions by FloorScore, such as Urban Surfaces' entire flooring selection, can contribute a point toward LEED certification. LEED (or Leadership in Energy and Environmental Design) is a global certification program for green buildings that is meant to promote the construction of buildings that are better for the planet and our health.

# BUILD RESPONSIBLY.

## Why FloorScore?

When it comes to indoor air quality, a primary concern is the emission level of specific volatile organic compounds (VOCs). FloorScore® IAQ Certification means that a flooring product is independently certified by SCS Global Services to comply with the volatile organic compound emissions criteria of the California Section 01350 Program. Hundreds of resilient flooring materials and their adhesives bear the FloorScore® seal. This seal tells you that the products have been independently certified by SCS to comply with the volatile organic compound emissions criteria of the California Section 01350 standard. Any product that has met these stringent standards is a product that will contribute to good IAQ.

## FloorScore Requirements?

To earn the FloorScore® seal, a flooring product must satisfy the requirements of the SCS-EC-10.2-2007 Environmental Certification Program – Indoor Air Quality Performance.

### Which Includes:

- Testing demonstrating compliance with emission concentrations for listed VOCs under California Section 01350
- Manufacturing facility on-site audits and yearly surveillance audits
- Annual product re-testing
- Product record keeping
- A documented quality control plan
