SOFT BACK. SMART CHOICE.

No more action-back damage!

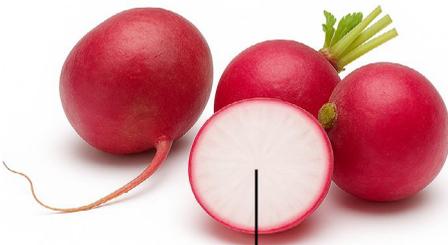

- ✓ Wrinkle-free carpet backing system
- ✓ Better seam integrity prevents peaking
- ✓ Higher noise absorption and insulation
- ✓ Prevent installation damage to walls and trim

PET-FRIENDLY CARPET

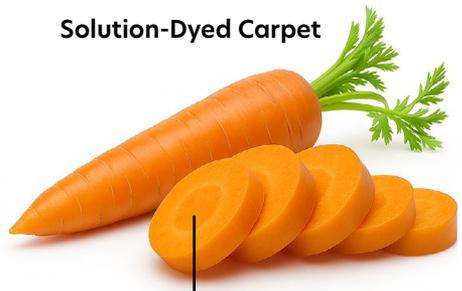

Solution-dyed carpet's color is locked into the fiber during the manufacturing process, making it highly resistant to fading, staining, and wear. The color permeates the entire fiber, unlike traditional dyeing methods where color only penetrates the surface.

Conventionally Dyed Carpet

Color Only on Surface

Solution-Dyed Carpet
